Gender Distribution.

Category-wise distribution of learners

Why is this KPI here?

- Total Learners: To show the overall number of learners.
- Total Amount Spent: To track financial metrics.
- Average Results: To measure learner performance.
- Active Cohorts: To monitor ongoing cohorts.

What does this chart represent?

- Bar Chart: Amount Spent by Country to compare spending across regions.
- Line Chart: Cohort Start and End Dates to visualize cohort timelines.
- Pie Chart: Gender Distribution to show learner demographics.
- Donut Chart: Category-wise distribution to highlight learner categories.

Data Table

Why is this table here?

- To provide a detailed breakdown of learner data for deeper analysis.
- Enable drill-downs for specific learner details

What will filters help users do?

- Filter by Country: Focus on specific regions.
- Filter by Degree: Analyze data by degree type.
